

Barnack Pre-School

Barnack C. E. Primary School, School Road,
Barnack, Stamford, PE9 3DZ

Testimonial for Tim Preece and all at TPTimberbuildings

On behalf of Barnack Pre-School we wish to express our heartfelt thanks and appreciation for the time and effort Tim Preece and his staff put into the development, production and installation of our new building.

From start to finish, Tim and his Team were always professional, helpful and organised. Starting with Sian in the office, all the way through to Debbie who came to help with the 'finishing touches'.

When Gill and I embarked on the project we had no idea just how complicated it would be liaising with the Local Authority, Solicitors, the School and the Diocese. Our project was financially constrained and Tim was so understanding and accommodating, helping us to secure the funds and getting the building completed by the required time.

We know that we have got a fantastic building which the children, staff and parents love. We have just had our OFSTED and the setting received an **OUTSTANDING**; the Inspector being very impressed with the building and the garden.

The project was not without its challenges, accessing the site was enough to give us all a heart attack!!! But Tim was calm and professional, reassuring us all the time we would get the building up the drive. It was amazing the speed at which the building was put together when on site, despite the weather and so the Pre-School was only shut for 2 weeks, which we think was remarkable.

Our opening day was well attended by the local community and we have had nothing but praise for the quality and visual impact of the building in our conservation area.

We would without hesitation recommend TPTimberbuildings; the building has surpassed anything we could have hoped for, with the funds we had available.

Wishing you all the best,
Helen Johnson and Gill Bassett, on behalf of Barnack Pre-School
